

Team 2
Project III - Sprint 3

WiedLeaf

Save the environment one leaf at a time

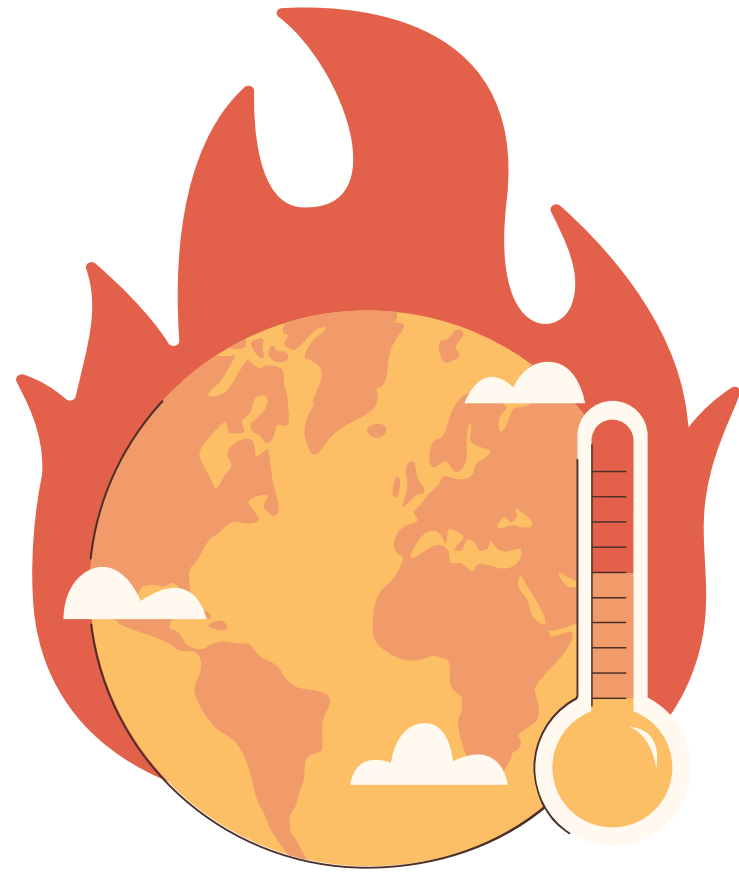

Client

Raphaëlle

- 20 years old
- Woman
- Animal care training
- Self-employed

Needs - Why is she protecting plants?

**Large environmental
issues**

**Protect the environment of
her horses**

Needs - How is she doing it?

Trash cleanings

Boycott

Reduce environmental impact

Preserve natural places

Problems

Means for associations trainings

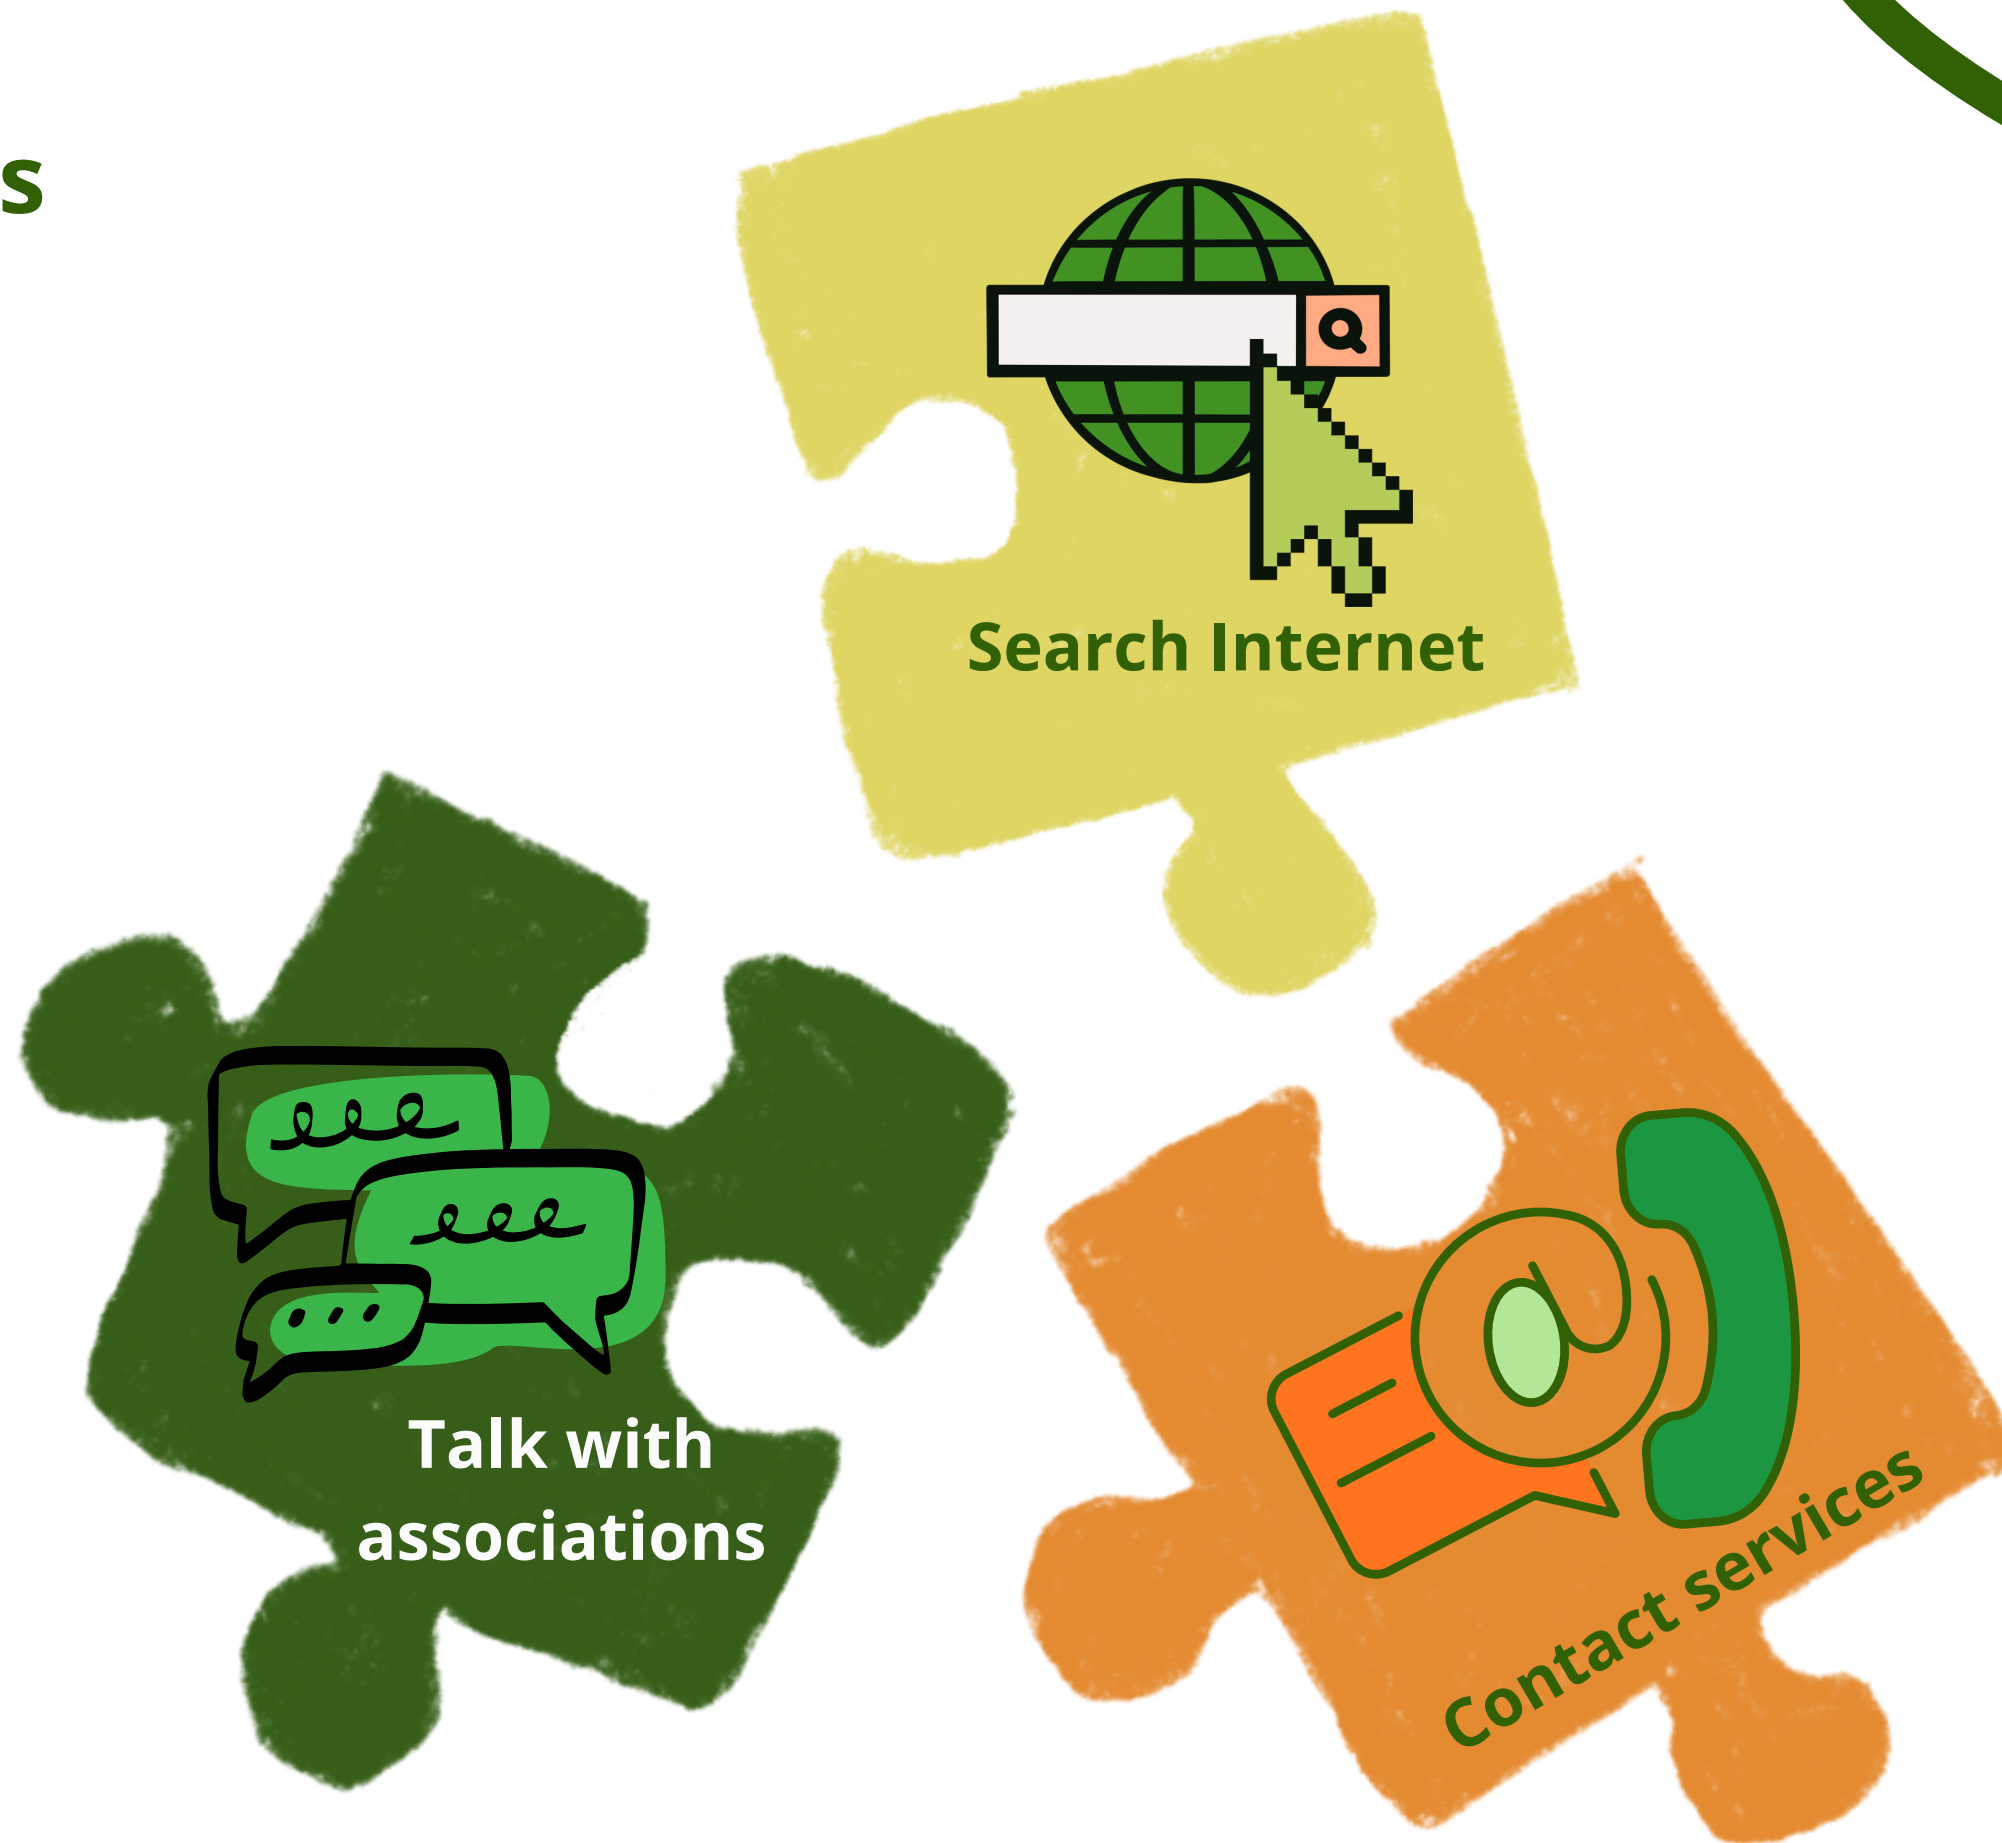

People who pollutes

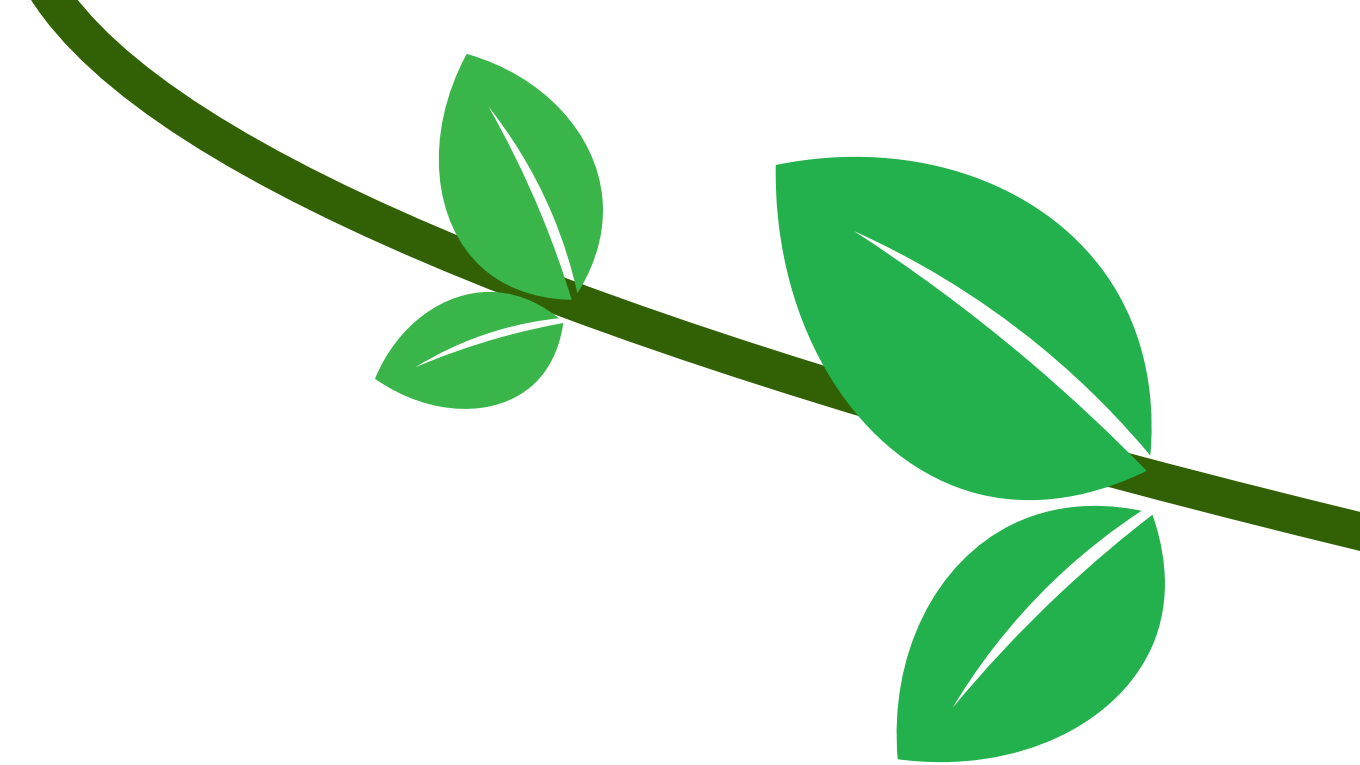

Lack of information

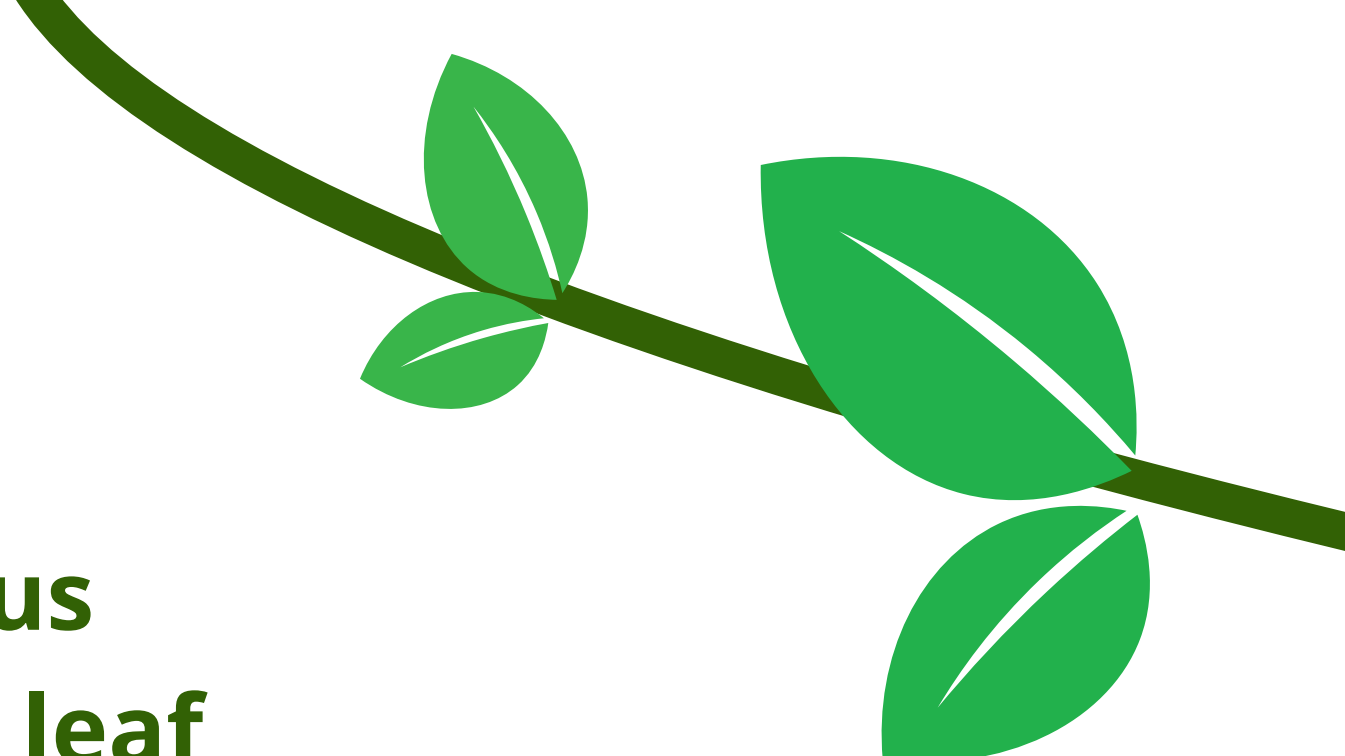

Alternatives

Demonstration

**Plants are a necessity for us
Help us to save them leaf by leaf**

WiedLeaf

**Do you have
questions?**

Backup - Interview 1 - Raphaëlle

Context or setting where everything takes place, Socioeconomic, demographic, psychographic characteristics and behavior	20 year old, woman, auto entrepreneur, animal care training
2. NEEDS	
Are you interesting in saving and/or protecting plants?	Yes
What motivates you to do so?	Personal reasons, environmental issues (emergency of the situation), protect the environment for the animals I work with.
How do you do it?	Respect envrionment (don't throw wastes), boycott, reduce environmental impact. Trash cleaning, leave natural spaces in properties.
3. PROBLEMS	
What problems did you face while doing it?	means (expensive to go on intership made by associations), people, lack of information.
What would your customer most like to save?	lack of information (so many things we can do, but we don't know about it)
4. ALTERNATIVES	
What alternatives are you currently using to solve these problems?	Search the web, or ask people about how to act
How are the current alternatives on the market solving these problems?	none, they are sometimes solving only part of the problem
List existing alternatives and evaluate advantages and disadvantages	plant net (for info), associations in real life
5. VALIDATE YOUR PROPOSED SOLUTION	
Your product features and/or services that generate benefits for your customer and reduce the problems they currently have	Yes, because it details info for each plant, and encourage people to act (easy and fast)
Consider how it differs from or improves on existing alternatives.	not only information (plantnet) but also call to action

Backup - Sprint 3 Objectives

Objective	Details	Objective Met
Make the remaining functionalities of the app	Finish the map, the login, and the trash cleaning part	X
Deploy the app	Have the app accessible thanks to a link	X
Make interviews	Check the needs of the users to make the best possible app	X
Prepare the presentation	Align the demonstration with the chosen user interview	X
Do weekly meetings every Thursday	Keep track of the work we need to complete every week	X

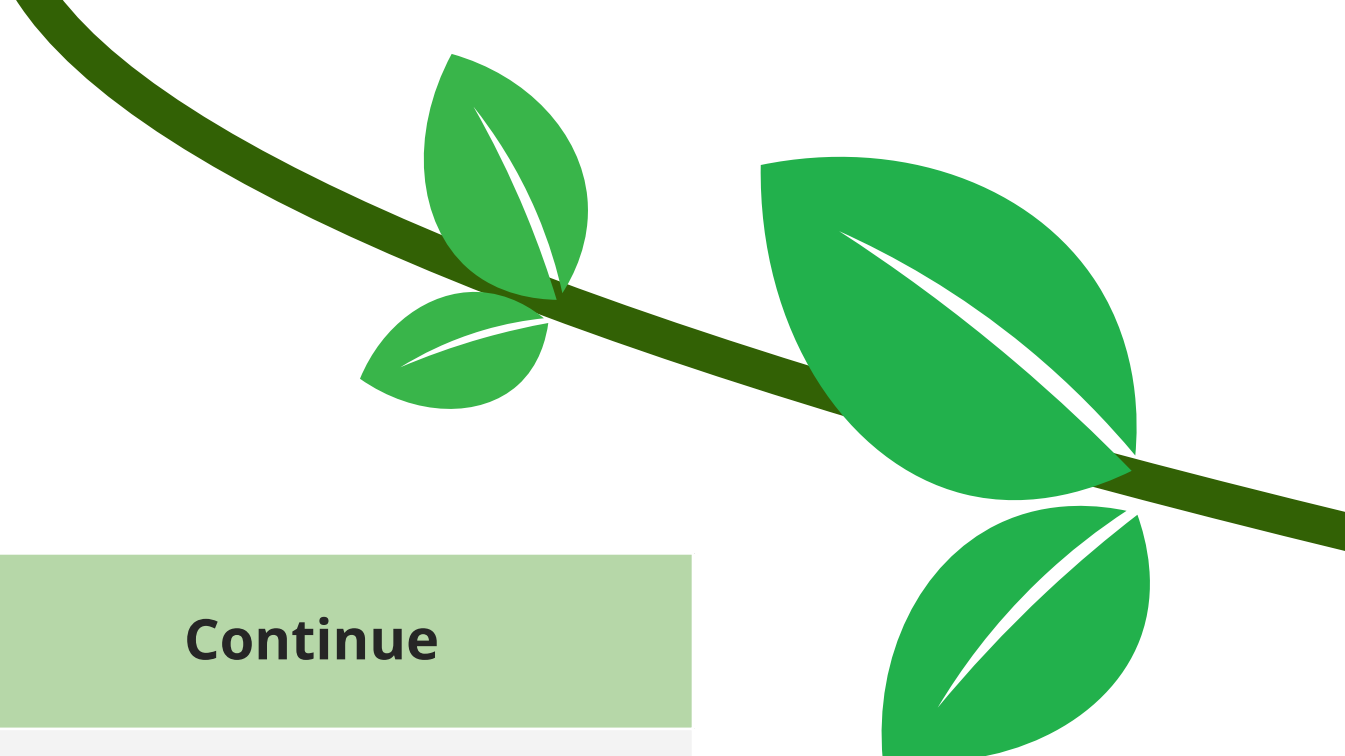

Backup - Blockages

- 
- ① Diego had issues with his computer and we had to help him to run the application for him to be able to work. In the end he was able to make what he had to do.
 - ② We missed one meetings due to schedules problem, but we manage to make one the week-end after to not loose track of what has been done.
 - ③ We had problem to figure out where the app was going to be deployed, mainly due to cost issues. We finally agreed on an EC2 instance.

Backup - Stop Start Continue

	Start	Stop	Continue
Guillermo	Learning GitHub	Working without knowing the whole architecture	Do the work early
Diego	Solving problems quicker	Procrastinating	Practise public speaking
Emilie	Check code more carefully before pull requests	Stressing too much	Doing my tasks as soon as possible
Samuel	Arriving on time	Leaving things for the last moment	Managing the repository
Team	Doing things sooner	Overcomplicating the architecture	Do efficient weekly meetings
